G                        G7          C
   Sleigh bells ringing in the snow,     kissing 'neath the mistletoe
D                   D7                        G      D7
   Out in the barn the cattle low, it's Christmas in the valley

G                                     C
   And soon beneath the Christmas tree,     we'll gather with our families
D              D7                    G      G7
   Love in perfect harmony, it's Christmas in the valley

       C                          G
Oh the valley lights will shine so bright,     all the world will be so right
A7                            D
   When Santa on his magic night     comes to his children
          G                     G7          C
There'll be     sleigh bells ringing in the snow,     kissing 'neath the mistletoe
D                                       G      G
    Out in the barn the cattle low, it's Christmas in the valley

G                               C
   Candle light and hearts aglow,     the silent dance of falling snow
D                       D7               G      G
   Familiar songs on the radio, that's Christmas in the valley

G               G7             C
   In every town the church bells ring,     in every home a young child dreams
D              D7                    G      G7
   In every heart the spirit sings, it's Christmas in the valley

       C                          G
Oh the valley lights will shine so bright ,     all the world will be so right
