

Summerlea

Fred Eaglesmith

Count 1 2 3 4. 1 2 3 4

INTRO : Am //// Am ////

Am

Nighttime's fallin' on the summerlea

G

And supper's gettin' cold

Am

G

It's the second time in as many weeks he hasn't shown

F

He's probably chasin' some old steer

Am

Across some prairie storm

G

And when she asks him, he'll just shrug and say

F

Am

"That's the way things go."

Refrain:

Am
But he only gets in to town twice a month
G
And he gets out as fast as he can
Am
He don't have a phone so she can't call him up
G
And she never knows where he is
F
He smells like horses and he chews tobacco
Am
And he cusses and he spits
G
She's been in love a couple of times before
F Am
But never quite like this

Am G
Next month it'll be those damned old rodeos and fairs
Am
And he'll be gone for six weeks straight
G
To God only knows where
F
And he won't win any money and
Am
Worse than that, he won't care

G
And when she asks him, he'll just smile
F **Am**
He had a real good time out there

Refrain:

Am
But he only gets in to town twice a month
G
And he gets out as fast as he can
Am
He don't have a phone so she can't call him up
G
And she never knows where he is
F
He smells like horses and he chews tobacco
Am
And he cusses and he spits
G
She's been in love a couple of times before
F **Am**
But never quite like this

Am
Well he stops his horse to get a light
G
And the water pours off his hat

Am
He's been out in the storm most of the night
G
And he ought to be gettin' back
F
He's been thinkin' about the colour of her hair
Am
And the touch of her hand
G
And the way she quietly smiles
F Am
Whenever she looks at him

2nd Refrain:

Am
But he only gets in to town twice a month
G
And he gets out as fast as he can
Am
He don't have a phone so he can't call her up
G
And he never knows where she is
F
She smells like flowers and perfume
Am
And tobacco and gin
G
He's been in love a couple of times before

F Am
But never quite like this

G
He's been in love a couple of times before
F Am Am /
But never quite like this
