## Verse 1:

Well, I used to be a farmer  
 And I made a living fine  
 I had a little stretch of land along the CP line  
 But times went by and though I tried  
 The money wasn't there  
 And bankers came and took my land  
 And told me fair is fair

I looked for every kind of job, the answer always no  
 Hire you now they'd always laugh, we just let twenty go

**Am**                      **Am**                      **Dm**                      **Dm**  
 The government, they promised me a measly little sum  
**Am**                      **Am**                      **G**                      **G**  
 But I've got too much pride to end up just another bum  
**F**                      **F**                      **F**                      **F**  
 Then I thought who gives a damn if all the jobs are gone  
**D**                      **D**  
 I'm gonna be a pirate  
**G**                      **G** **Tremolo**  
 On the River Saskatchewan

 Well you'd think the local farmers

 Would know that I'm at large  
**F**                      **C**                      **D7**                      **G7**  
 But just the other day I found an unprotected barge  
**C**                      **C**                      **F** ↓                      **G7** ↓                      **C**  
 I snuck up right behind them and they were none the wiser

 I rammed the ship and sank it and I stole their fertilizer

**Am**                      **Am**                      **Dm**                      **Dm**
